

CUSTOMER INCENTIVE PARTICIPATION TERMS FOR WESTRAC FITFLEET SERVICE COMMITMENT

This document sets out the Customer Incentive Participation Terms applicable to the Australia Services Commitment Program ("**Program**"). The Program is effective from 1 September, 2023 ("**Program Start Date**").

The Program is available for all new or renewed Customer Value Agreements ("**CVA**") for Eligible Cat Machine Models (as defined below), including our FitFleet CVA agreements, entered into between WesTrac and its registered construction industry customers ("**CI Customers**") on or after Program Start Date ("**CVA Customers**").

The terms published in this document will apply to and take priority over the terms of your CVAs, if you are willing to participate in the Program and it is accepted by your confirming that, as the CVA Customer, to us in writing.

Parts Availability Commitment and Service Response Commitment

If the Parts Availability Commitments are not met by WesTrac, Cat Credits will be requested to be issued in favour of the CVA Customer.

WesTrac offers to include the Parts Availability Commitments and Service Response Commitments in a new or renewed CVA with a CI Customer for Eligible Cat Machine Models that meet the following minimum requirements:

1. For new or renewed parts only CVAs:
 - (a) the Parts Availability Commitment shall mean the commitment made to the CVA Customer to have the Maintenance Parts available at the service locations designated by WesTrac ready for pick-up by the CVA Customer:
 - (i) by end of the next business day if no Order Need-By-Date is captured, or if the Order Need-By-Date is the same day (as entered in WesTrac's ERP System), or
 - (ii) by the end of business on the Order Need-By-Date (as entered in WesTrac's ERP System).
 - (b) If the Parts Availability Commitment is not met, WesTrac will request that Caterpillar (or its affiliates) issue Cat Credits in favour of the CVA Customer for the lesser of:
 - (i) the price paid by the CVA Customer for the specific Maintenance Part(s) (excluding all taxes or other fees) that was (were) not ready for pick-up by the CVA Customer in time as per section 1(a); or
 - (ii) AUD 1,000 per invoice, provided the Maintenance Parts that were not ready for pick-up in time are not already covered through Caterpillar Warranty or an EPP.
2. For new or renewed CVAs with WesTrac labour:
 - (a) the Parts Availability Commitment shall mean the commitment made to the CVA Customer to have the Maintenance Parts available at WesTrac's service locations, ready for pick-up by the CVA Customer or use by WesTrac's Service Department:

CUSTOMER INCENTIVE PARTICIPATION TERMS FOR WESTRAC FITFLEET SERVICE COMMITMENT

- (i) by end of the next business day if no Order Need-By-Date is captured or if the Order Need-By-Date is the same day (as entered in WesTrac's ERP System); or
 - (ii) by end of business on the Order Need-By-Date (as entered in WesTrac's ERP System).
- (b) the Parts Availability Commitment shall mean the commitment to the CVA Customer for the Eligible Cat Machine Models to have the Repair Parts available at WesTrac's service locations, ready for pick-up by the CI Customer or use by WesTrac's Service Department:
 - (i) by end of the second business day if no Order Need-By-Date is captured or if the Order Need-By-Date is the same day or next business day (as entered in WesTrac's ERP System) or
 - (ii) by end of business on the Order Need-By-Date (as entered in WesTrac's ERP System) if the Order Need-By-Date is not the same day or next business day.
- (c) if the Parts Availability Commitment above is not met, WesTrac will request that Caterpillar (or its affiliates) issue Cat Credits in favour of the CVA Customer for the lesser of:
 - (i) the price paid by the CVA Customer for the specific Maintenance Part(s) or Repair Part(s) (excluding all taxes or other fees) that was (were) not ready for pick-up by the CVA Customer or use by WesTrac Service Department in time as per section 2(a) or 2(b) (as applicable); or
 - (ii) AUD1,000 per invoice, provided the Maintenance Parts and the Repair Parts that were not ready for pick-up in time are not already covered through Caterpillar Warranty or an EPP.
- (d) the Service Response Commitment shall mean the commitment to CVA Customers to:
 - (i) begin the scheduled service no later than Second Day After Initial Customer Call or by the Customer Need-By-Date. This is defined by the time period between work order open date and first labour date.
 - (ii) First labour date can be Diagnostics Before Arrival (as defined below).
- (e) if the Service Response Commitment above is not met, WesTrac will issue an account credit in favour of the CVA Customer to the CVA Customer's WesTrac trading account for the lesser of:
 - (i) the price paid by the CVA Customer for the specific scheduled service (excluding all taxes or other fees) that was not begun no later than Second Day After Initial Customer Call or by the Customer Need-By-Date as per section 2(d); or
 - (ii) AUD500 per invoice, provided the scheduled service that was not begun by no later than Second Day After Initial Customer Call or by the Customer Need-

CUSTOMER INCENTIVE PARTICIPATION TERMS FOR WESTRAC FITFLEET SERVICE COMMITMENT

By-Date as per section 2(d) was not already covered through Caterpillar Warranty or an EPP.

Eligible Cat Machine Models means the following GCI and BCP Cat machines manufactured ten years or less before the new or renewed CVA contract start date:

Articulated Truck	Motor Graders (up to 140)	Telehandlers
Backhoe Loaders	Multi-Terrain Loaders	Track Type Loaders
Compact Loaders	Off-Highway Trucks (up to 775)	Wheel Dozers (up to 834)
Dozers (Small & Medium)	Paving Equipment and Compactors	Wheel Loaders (Up to 990)
Hydraulic Excavators	Pipelayers	Wheel Track Scrapers
Landfill Compactors	Skid Steers	Wheeled Excavators
Mini Excavators	Soil Compactors	

Cat 992 Wheel Loaders and 777 Off-Highway Trucks are excluded from the Eligible Cat Machine Models.

The following Cat parts are excluded from this Program; therefore, there will be no cover for any costs associated with any Parts Availability Commitments made by WesTrac for:

1. Cat parts orders in Excessive or Bulk Orders.
2. Cat parts considered by Caterpillar as Made as Ordered Items.
3. Discontinued Cat parts.
4. Any Cat parts ordered by Cat dealers other than WesTrac that signed the new or renewed CVA with the CVA Customer.
5. Cat parts ordered by WesTrac under rental fleet CVAs.
6. Any Cat parts not included in the list of Cat parts within the scope of the Services Commitment Program listed in Appendix 2 of this Document, which will be updated regularly by Caterpillar.

Additional Terms and Conditions

1. As a requirement of the Program between WesTrac and Caterpillar (and its affiliates), the Program will automatically terminate without further notice immediately after 30 June 2024 and may be terminated prior to that date:
 - (a) immediately by WesTrac, if WesTrac reasonably determines that the continued operation of the program might cause Caterpillar (or its affiliates), WesTrac, or CVA Customers to breach any applicable laws;

CUSTOMER INCENTIVE PARTICIPATION TERMS FOR WESTRAC FITFLEET SERVICE COMMITMENT

- (b) by WesTrac upon thirty 30 days' prior notice to the CVA Customer if Caterpillar (or its affiliates) no longer supports the Program; or
 - (c) by either party for any reason whatsoever in its sole discretion on two (2) months prior written notice to the other party.
- 2. WesTrac reserves the right to modify the list of Cat parts within the scope of the Program included in the Appendix of this Document at any time, without prior notice to the CVA Customer.
- 3. Each CVA Customer Order can only capture one Eligible Cat Machine Model serial number. If parts are needed for multiple Eligible Cat Machines Models, then several orders must be placed, one for each serial number.
- 4. The CVA Customer must fully comply with any maintenance obligations imposed on the CVA Customer within a new or renewed CVA.
- 5. **Use of Cat Credits.** The Rules for Cat Credits for issuance in Australia applicable to CVA Customers are available from https://www.cat.com/en_US/promotions/cat-credits.html#accordion-bd07df011d-item-052948c0bf-button. The Rules may be revised or replaced from time to time by Caterpillar (or its affiliates) and shall be binding on customers who receive Cat Credits.
- 6. **Value of Cat Credits.** Each Cat Credit will have a value (in dollar terms in the applicable currency) specified on it. This value will be set at the time the Cat Credit is issued and cannot be increased after the Cat Credit is issued, unless it is because of the reversal of a payment made under the Cat Credit or the correction of an error. For as long as a Cat Credit has value on it (and is not otherwise expired), it may be used to make eligible purchases on more than one occasion. Under no circumstance can any value be withdrawn from a Cat Credit by means of a cash payment to any customer.
- 7. **Expiration of Cat Credits.** The Cat Credits issued under the Program will expire 365 days after being issued by Caterpillar (or its affiliates) or the issue date specified on the Cat Credit (whichever is later). Each Cat Credit will have an expiry date specified on it.
- 8. **Issuance of Cat Credits.** Each Cat Credit will have an issue date specified on it. Caterpillar (or its affiliates) will issue Cat Credits as quickly as possible following the date of notification of the Program trigger having been met for a Cat Credit to be issued and in any case a Cat Credit shall have an issue date no later than 3 months from the date it is to be issued.
- 9. **Force Majeure.** Neither Caterpillar, its affiliates, or any of Caterpillar's or its affiliates' respective licensors, service providers, subcontractors, suppliers or distributors (including WesTrac) will be responsible for any delays in delivery of Cat parts for which WesTrac offered Parts Availability Commitments, to the extent such delays in delivery result from any cause beyond Caterpillar's or its affiliates, or any of its or their respective licensors, service providers, subcontractors, suppliers or distributors' (including WesTrac). Should any such delays in delivery occur, there will be no Cat Credits provided for those delayed Cat Parts.
- 10. **Change to Rules or the Program.** WesTrac will give the CVA Customer twenty (20) Business Days prior notice of any issuance, revision, or replacement of Cat Credit Rules, a Customer Incentive Program or Customer Incentive Participation Terms by Caterpillar (or its affiliates) that it reasonably determines to be adverse to the CVA Customer (for example,

CUSTOMER INCENTIVE PARTICIPATION TERMS FOR WESTRAC FITFLEET SERVICE COMMITMENT

because it has the effect of increasing obligations), unless that issue, revision or replacement is required by Applicable Laws in which case a shorter period of notice may be given as required by Applicable Laws.

11. **WesTrac trading account credit.** Any credit made to a CVA Customer's WesTrac trading account for the purposes of section 2(e) of the Parts Availability Commitment and Service Response Commitment is subject to the terms and conditions which apply to that trading account. WesTrac will work proactively with customers to understand the reason a specific scheduled service was not begun no later than Second Day After Initial Customer Call or by the Customer Need-By-Date and may in its sole discretion refuse to issue an account credit to a CVA Customer for the purposes of section 2(e) of the Parts Availability Commitment and Service Response Commitment.

Definitions

"BCP" means Caterpillar's Building Construction Products line.

"Caterpillar Warranty" means the then applicable warranty issued by Caterpillar and delivered by a Cat dealer to the CI Customer.

"CI Customer" means a customer identified within WesTrac's internal marketing system (OLGA) as a Construction Industries customers.

"Customer Need-By-Date" means the date captured by WesTrac indicating when the CI Customer would prefer service on the Eligible Cat Machine Model to be completed. It is also referred to in this Document as "Customer Requested Start Time".

"CVA" means a Customer Value Agreement, at least adhering to this minimum definition: (i) a signed agreement for a term not less than 12 months for genuine Cat parts, and (ii) connected and either annual inspection or SOS performed, and; (iii) some level of alerts and advice management with the customer.

"Diagnostics Before Arrival" means leveraging any available data (condition monitoring, SOS, inspections, PSRs, prior work orders, etc.) and processes like Remote Services, where applicable, to ensure the CI Customer issue can be addressed as quickly as possible.

"Excessive or Bulk Orders" means orders where the quantity ordered of a part exceeds the quantity needed to perform any repair or maintenance on the machine specified by the serial number on the order.

"EPP" means Equipment Protection Plan.

"ERP System" means the Enterprise Resource Planning System.

"GCI" means Caterpillar's Global Construction & Infrastructure line.

"Made as Ordered Items" means Parts where Caterpillar does not plan to hold inventory and will purchase from its supplier only after receiving a customer order.

"Maintenance Parts" means Cat parts falling into categories typically used for preventive maintenance. These include all types of filters and vee belts and excludes fluids. See the Appendix for details on the part of categories that fall into this definition.

CUSTOMER INCENTIVE PARTICIPATION TERMS FOR WESTRAC FITFLEET SERVICE COMMITMENT

"Order Date" means the date the order is entered into WesTrac's ERP system.

"Order Need-By-Date" means the date captured in the order by WesTrac indicating the date when the Cat part is needed.

"Parts Availability Commitments" has the meaning set forth in the Parts Availability Commitment section of this Document.

"Repair Parts" means CAT parts falling into categories considered to be used for wear replacement and repairs critical to keep machine running. Excludes parts most often used in planned replacement / overhaul and non-mechanical items. See the Appendix for details on the part categories falling into this definition.

"Same Day" means by end of business on the day of the initial customer call (during the WesTrac's business hours).

"Second Day After Initial Customer Call" means the end of the second business day from the initial customer call (during WesTrac's business hours). Customer calls outside WesTrac's business hours will be considered to have an initial customer call date and time of the start of the next business day.

"Service Response Commitments" has the meaning set forth in the Parts Availability Commitment and Service Response Commitment section of this Document.
